

BATH EQUIPMENT PATIENT USER GUIDE

This guide applies to shower chairs, transfer benches, bath stools, bath seats, tub safety rails, and other bathroom safety equipment.

BEFORE EACH USE

- ✓ Inspect all equipment for loose hardware, cracks, or damage.
- ✓ Ensure rubber tips and non-slip feet are clean and securely attached.
- ✓ Verify all adjustment buttons or locking mechanisms are fully engaged.
- ✓ Confirm the equipment is stable and does not wobble before use.
- ✓ Do not use damaged equipment.

SAFE USE

- Place bath equipment on a clean, level, non-slip surface inside the tub or shower.
- Adjust the height so all legs are the same length and securely locked.
- Sit down slowly using the armrests or transfer bench for support.
- Keep both feet flat on the floor or tub surface when transferring.
- Use grab bars for additional support when available.
- Always follow your therapist's or healthcare provider's transfer instructions.

SAFETY PRECAUTIONS

- ⚠ Never exceed the manufacturer's maximum weight capacity.
- ⚠ Do not stand on the seat or backrest.
- ⚠ Do not use bath equipment on uneven surfaces.
- ⚠ Do not modify or alter the equipment.
- ⚠ Replace worn rubber tips immediately.
- ⚠ Children should only use bath equipment with adult supervision.
- ⚠ If you experience dizziness or weakness, request assistance before transferring.

CLEANING & MAINTENANCE

- Clean after each use with mild soap and water or an approved disinfectant.
- Rinse thoroughly and allow to air dry.
- Inspect all bolts, adjustment pins, rubber tips, and seat surfaces regularly.
- Tighten loose hardware as needed.
- Contact Prime Care Medical Equipment if replacement parts or repairs are required.
